PHS "Virtual" Student and Family Handbook 2020- 2021

This handbook is provided to outline the procedures and expectations for families during the remote learning program.

Overview

As we enter the 2020-21 school year, we undoubtedly face learning situations that will challenge our traditions and beliefs at the Prince Hall School. Our school is committed to supporting our staff as they design and deliver instruction in a variety of educational environments and our families and their students as they choose the best learning situation for their families. Prince Hall School will be remote learning for the fall semester. All students are expected to maintain satisfactory attendance and academic progress.

PRINCIPAL'S MESSAGE

Welcome Prince Hall students and parents to another year of excellence. "Our vision at Prince Hall is for 100% of our students to be college and career ready, demonstrate leadership skills, and continue their commitment to academic excellence and community service within the school and the global community." Literacy is our focus. As principal, it is my responsibility to set the tone and keep the standards of High Instructional Practices. As parents, it is your responsibility to provide your children with positive attitudes and the tools for success. Therefore, I am asking you to read to your child for 15 minutes a day or have them read to you. Our children model their behaviors after what they see in adult behavior; therefore, as adults, we must give them positive examples. We are excited about the many wonderful learning opportunities that have been planned for this school year and look forward to working with you and your children to make them a reality! Keep your handbook as a quick reference for Prince Hall School policies. From: Mrs. Donna Ragsdale

MISSION STATEMENT

Prince Hall's Mission is to: Develop students intellectually, socially, and emotionally so that they become life-long learners and productive citizens of the world.

FOCUS AREAS

• Math • Reading • Science • Writing • Social Studies • Citizenship • Attendance • Punctuality • Conflict Resolution •

TRADITIONS

Colors Sky Blue, Grass Green

MOTTO: “Prince Hall is the Best Between Heaven and Earth” Mascot Owl

For the purposes of this document, **remote learning** is defined as a form of distance or virtual learning that is done using the internet and electronic instruction for the entire school day. Included in this handbook is a catalog of offerings per grade band that includes the four core subjects (English language arts, math, science, and social studies) taught by a dedicated remote learning teacher. Other courses in the arts, computer technology and physical education will be offered as well to all K-5 students. Students will have those courses in addition to the core to engage in **synchronous (live video instruction) and asynchronous (video or software-based with a teacher facilitator)** approaches for both regular and special education classes.

Remote Instruction

For students in Grades K, orientation will be scheduled by the assigned remote learning teacher. Complete understanding of the 2020-21 (remote learning) will be crucial to ensure student success in the remote learning environment, and Prince Hall School is committed to providing a high degree of support and resources for students and families. Orientation courses for parents and students in grades 1-5 must be completed before enrollment in remote learning is finalized. For students in grades 1-5, orientation will include:

Expectations of Students

- Participate in, each school day, remote learning lessons with teachers.
- Daily, Online Learning Platform (grades K-5) for communications from the school or teacher.
- Report any technical issues through the Tech Helpline (see Technology section of this handbook) as soon as the issue arises.
- Be actively engaged in the learning environment and content by staying on track with assignment completion and deadlines.
 - Online interactions with classmates and teachers will be positive and constructive.
 - Continue to follow and maintain all online and technology expectations in the PHS Acceptable Use Policy.

Parents/Guardians:

- Plan and maintain a remote learning schedule for the child.
- Set up a dedicated learning space in the home.
- Maintain open lines of communication by phone and email with teachers.
- Support academic integrity by appropriately assisting your child with assignments or projects.

- Ensure your child is submitting assignments on time as directed by the teacher.
- Communicate any issues or questions directly to the teacher by phone or email.
- Read, review, and follow the PHS Acceptable Use Policy.

Remote Learning Teachers:

- Communicate daily with students.
- Design and implement instruction.
- Communicate lesson and learning outcomes via video.
- Provide feedback to assigned student work.
- Assess skills and standards through formative assessments.
- Communicate regularly with students and parents through Class DoJo, email, and other learning platforms.
- Take daily attendance.

Live Conferencing Sessions

Video conferencing and live group chat sessions are essential components of the learning process and help improve the connectedness of remote team members. As with the use of social media, students are required to adhere to school policies pertaining to these areas in our Student Handbook, and to observe the following regarding the Remote Learning environment:

- Students must be punctual to the live conferencing sessions scheduled by the teacher. Teachers will be monitoring attendance and students may be receiving class participation grades.
- Ensure your technology works properly and frame the camera correctly.
- Good online manners are vital to a productive and supportive online learning environment. Students are to behave in the live online session as expected in the regular in-person class, especially because the SESSION MAY BE RECORDED.

Academics and Academic Honesty Academics

Grade K instruction and assignments will be provided by teachers for students using an online learning platform. The teacher assigned to your child's remote classroom will notify you which platform will be utilized and will provide an orientation via video conference for you and your child. To fully cover the required curriculum, students should expect to spend up to 20 hours per week engaged in online learning as required by the School District of Philadelphia. Live instruction and daily checks on progress will be combined with independent work supplemented by Prince Hall School learning materials. All learning activities and materials will be aligned to the Pennsylvania State Standards for all subjects.

Grades 1-4 instruction and assignments will be provided by teachers for students using an online learning platform. The teacher assigned to your child's remote classroom will notify you which platform will be utilized and will provide an orientation via video conference for you and your child. To fully cover the required curriculum, students should expect to spend up to 32.5 hours per week engaged in online learning as required by the School District of Philadelphia. Live instruction and daily checks on progress will be combined with independent work supplemented by Prince Hall School learning materials. All learning activities and materials will be aligned to the Pennsylvania State Standards for all subjects.

Grades 5 will use Google Meet as the primary learning management system for remote instruction. To fully cover the required curriculum, students should expect to spend 32.5 hours per week engaged in online learning for their full class load. Grade 5 will have 1 teacher that will teach Math, 1 teacher that will teach Literacy and 1 teacher that will teach Science/Social Studies. The required hours for remote learning engagement include synchronous and asynchronous video instruction, reading, completion of tasks and assignments, writing, experiments, homework, and other activities. This is not designed nor intended to be sitting in front of a screen for all of these hours. Students may complete assignments at their own pace which could impact their engagement times.

Remote Learning teachers are highly qualified in their assigned subject and grade levels. All teachers hold valid Pennsylvania certification and have completed all necessary fingerprinting and background checks. Each teacher is available to students via email, virtual platform, or during onsite appointment times.

Assessment for Learning Loss and Special Services

Due to the Spring 2020 closure, Prince Hall School is planning to assess all grade 1-5 students in the core academic subjects with a variety of tools when school resumes. These may include daily formative assessment to determine academic gaps from the previous year, assessments included with our purchased materials, and previous checkpoint assessments developed by the district. Academic coaches will support teachers as they determine students' individual academic positions and supplement with additional instructional resources as needed.

Academic Honesty Expectations

Prince Hall School insists on strict standards of academic honesty in all courses. Academic honesty applies to all students in all classes (traditional and remote learning). Violations of these expectations will not be tolerated. Schoolwork must be based on a student's original ideas, while fully acknowledging the work of others. Teachers will provide guidance on when and how to use acknowledgments and how to paraphrase.

Examples of failure to follow the Academic Honesty Expectations include: ○ Plagiarism: the act of passing off someone else’s work as your own; ○ Fabrication of data: manufacturing data for a table, chart, survey or similar requirement; ○ Collusion: supporting academic dishonesty of another student, as in allowing work to be copied or submitted by another; ○ Duplication of work: the presentation of the same work for different assessments and/or course requirements; ○ Also including, but not limited to, any other behavior that creates an unfair advantage: taking unauthorized material into an assessment environment, disrupting an assessment by misconduct, any effort at passing on information related to an assessment, failures to comply with assessment instructions, impersonating another student, stealing assessment materials.

Attendance

Requirements and Verification

Per the Philadelphia School District Continuous Learning Plan Policy, Prince Hall School will track and report daily attendance. Every student must participate in remote learning every instructional day. Schools will provide students in Grades one (1) through five (5) access to six and one half (6.5) hours of instructional time each school day and students in Kindergarten with access to four (4) hours of instructional time each school day. Absences during remote instruction will be noted, and any resulting attendance interventions administered, according to the School Board Attendance Policy. Schools shall seek and receive daily visual, verbal, and/or written verification of student participation in instructional time.

Attendance expectation accountability includes the following:

- **Teacher phone contact with the student**
- **Teacher phone contact with a parent or guardian**
- **Virtual instruction attendance log through Google Meet**
- **Student work completion through virtual platform**

Grading Scale

Grades 1-5 use the following grading scale as approved by the Philadelphia School District.

Letter Grade	Numerical Grade
A	90-100
B	80-89
C	70-79
D	65-70

F	64 and below
---	--------------

Make-Up Work

Students with absences are expected to complete the work missed. The student should communicate with teachers within 2 school days of returning from absences to make arrangements to complete work missed. The teacher will allow a reasonable amount of time for the student to make up his/her work. A reasonable amount of time should be at least a day for each day of absence plus one extra day. The student has the sole responsibility to complete the work for his or her courses. Prince Hall teachers will remotely support and/or tutor students as needed over the course of the academic term. Any student who needs support should inform the teacher and participate in **virtual office hours/tutoring**.

Parents play a vital role in their child’s remote education. Parental support and encouragement are critical for students working in online courses. Parents shall ensure access to the necessary technology to support digital learning.

Monitoring of a student’s progress will be a key component to student success and should occur at regular intervals during the day and week. Prince Hall teachers will make several individual contacts with students and parents during the academic term, but ultimately the student must take the initiative to complete the online work to stay on track for completion. Students who fall significantly behind or who struggle with completion may be required by the teacher to attend tutoring or academic support sessions to develop the skills needed to ensure their completion of the content. In the event that a student isn’t making sufficient academic progress or is not on track to complete the online work, or his or her attendance or behavior doesn’t meet the expectations for PHS Remote Learning, he or she will be placed on an Academic Success Contract.

Student/Parent Support and Guidelines for Special Services

Prince Hall School will continue to provide appropriate services for our special populations. Below, you will find a description of special services provided by PHS to our students who are learning in the remote environment.

English as a Second Language/ILP

Upon initial enrollment in the Prince Hall School, the parents of all students will complete the Home Language Survey. Students requiring screening in grades K-5 will be screened using a WIDA screener (WAPT for kindergarten and WIDA Screener for grades 1-5). If your student qualifies for ESL services, you will be contacted with

additional information. Any returning English Language Learner who has not tested English Proficient (using the state's exit criteria for the spring 2020 WIDA Access test) will continue to receive ESL instruction during the 2020-21 school year. All students needing ESL services will receive them through either on-site or remote instruction, according to state and federal guidelines. Student testing and other sources of student performance will be used to establish learning goals and to create an Individual Learning Plan (ILP) that is reviewed and updated each four and one-half weeks. Remote instruction will be provided through Google Classroom in K-5, which may include synchronous or asynchronous assignments, instructional videos, activities to be done with family members, and/or live video chats with instructors.

Multi Tiered System Supports (MTSS)

All students will be universally screened in Reading, Math, and Writing and all data will be considered by the MTSS team to determine if services are needed. Students in K-5 will be screened using Aimsweb tests. If your student qualifies for MTSS services, we will contact you with more information. Any student needing MTSS services will receive them remotely, according to state and federal MTSS guidelines. These guidelines include daily research-based intervention of appropriate duration and intensity, bi-weekly testing in the area of need, review of progress by the team to determine growth and modify future intervention to meet needs, and monthly communication with parents about student progress. As in classrooms, instruction will be provided through Google/ Zoom Classroom in K-5 which may include synchronous or asynchronous assignments, instructional videos, activities to be done with family members, and/or live video chats with instructors. Further instructions and ways to contact the MTSS team for assistance will be provided on our MTSS course for families of students receiving intervention. For families of students in K-5, please note that intervention will begin after the universal screening process has been completed.

Special Education / IEP

Students with disabilities will be provided with special education instruction and related services per the student's Individualized Education Plan. Special education students will utilize the Academic Procedures on page 2 of this handbook. IEP meetings will be held via teleconference or video conference. Questions regarding testing or special education programming should be directed to the Special Education Consulting Manager at Prince Hall School.

504

All accommodations for students with a 504 services plan will be provided by both the remote learning teacher.

Homeless

The Prince Hall School Homeless Education Program will continue to provide McKinney-Vento Services to students. Services will be provided remotely via phone calls, emails, and online meetings. The Homeless Education Program will ensure all necessary information is posted on our website and widely shared through School Messenger.

School Counseling

School counselors at each school will regularly schedule check-ins with students learning at home during remote learning. Additional mental and emotional health services will be available to families by contacting our school counselor. If you or a family member is in a mental health crisis, please call the Philadelphia Children's Crisis Response Center at 215-878-2600. To report suspected child abuse or neglect, call 877-237-0004. The National Suicide Prevention Lifeline provides 24/7, free and confidential, support for people in distress as well as prevention and crisis resources for you or your loved ones. Contact the National Suicide Prevention Lifeline at 1-800-273-8255 or text "Home" to 741-741.

Meals

All Prince Hall students who are learning at home may still participate in daily breakfast and lunch services. Please see the Philadelphia School District website for meal distribution sites.

Technology Device and Internet Access

Technology Device and Internet Accessibility:

Technology devices will be available for all students participating in virtual (Remote Learning) and will be issued by each student's traditionally assigned school. If a student device is available in the home, parents may choose to use that home device; however, the district technology staff will be unable to provide technical support for home devices. While efforts will be made to issue similar devices across the district, some school-level variation may occur. All students will only be issued a technology device for remote learning upon acceptance of the PHS Technology Acceptable Use Policy. Teachers have been trained in using these devices to integrate technology into their curriculum through digital resources, collaboration, and Google Meet platforms. A schedule for digital device pick-up will be forthcoming.

If it is determined that a device needs to be replaced or repaired, the student/parent should contact their teacher at their earliest convenience. Every effort will be made to provide a replacement device at that time. In the event that a replacement device is not available, the device will be repaired and available for return to the student as soon as possible.

Responsible Internet Use and Digital Citizenship

The use of the Internet must be in support of education and research and consistent with the educational objectives of the school system. The use of other organizations' networks or computing resources must comply with the rules appropriate for that network. Transmission of any material in violation of any US or state regulation is prohibited. This includes, but is not limited to, copyrighted material, threatening or obscene material, or material that is protected by a trade secret. Use for commercial activities is not acceptable. Use for product advertisement or political lobbying is also prohibited.

- Privileges:

The use of the Internet is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges. The school system administrators will deem what is inappropriate use, and their decision is final. Also, system administrators may suspend privileges at any time.

- Net Etiquette: Students are expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:

- Avoid offensive or inflammatory speech.
- Be courteous and polite.
- Use appropriate language.
- Profanity or obscenities are not permitted at any time.
- Do not use the network in any way to disrupt the work of others.
- All communications and information accessible via the network should be assumed to be private property.
- Users may not quote personal communications without the author's consent.

- Vandalism: Vandalism is defined as any malicious attempt to harm or destroy data of another user, the Internet, or other networks that are connected to the Internet backbone. This includes, but is not limited to, the uploading or creation of computer viruses.

- An exception to terms and conditions: These terms and conditions reflect the entire agreement of the parties and supersede all prior oral and written agreements and understandings of the parties.

Accommodations

Students who have an active IEP, 504, or ILP will receive Academic accommodations as stated in their most recent plan.

Remote Learning Classes: Grades K-5

PHS remote learning classes will be facilitated by Prince Hall teachers selected by the district and will follow the Pennsylvania State Academic Standards. These teachers will participate in district training specific to teaching in the remote and online environment. Students in grades K-5 will participate in classes focused on the following content areas:

- English Language Arts
- Math
- Science
- Social Studies
- Physical Education
- Computer Technology
- Art
- Literacy Enhancement

Remote learning teachers will facilitate students' progress in their classes through online written feedback, live video-based lessons, and communication with parents. Attendance at live sessions, engagement in online work, and progress for our students are closely related. Remote teachers will prioritize communication with parents of K-5 students on a regular basis and will closely monitor the engagement of students in their online work. Certain aspects of the work will be self-paced.

When remote learners return to the face-to-face classroom, Prince Hall School (PHS) expects a seamless transition for students returning to traditional instruction.

Social Media Outlets

Prince Hall School will use the following outlets to provide information to parents:

Twitter (**@PrinceHallScho1**)

Instagram (**prince.hall.reads**)

Prince Hall School Website (**<https://princehall.philasd.org>**).
